- PROTECT AGAINST DAMP AND MILDEW
- PINPOINT LEAKS IN UNDER FLOOR HEATING

Save €1,000s on heating, energy and insulation

"FANTASTIC from start to finish. I had been quoted €49,000 (less the government grant) to have my walls and roofs insulated. Tomas who did my survey (really nice honest man) informed me that none of the insulation was necessary. ***Snughome has saved me €40k*** - unbelievable!!! The survey was very detailed with thermal imaging photos of all the areas in my home where I was losing heat (mostly window and door seals and vents) and was followed up by a **very detailed report** on the areas that needed attention (at a minimal cost). Worth every penny to get this survey done. **100% satisfied with Snug Home survey.** " - **Dympna**
